Publication No. US20030166591A1

GENERAL INFORMATION:
APPLICANT: Rennie, Paul S.
APPLICANT: Naryake, Hideaki
APPLICANT: Nelson, Colleen
APPLICANT: Nelson, Colleen
APPLICANT: Monia, Brett P.
TITLE OF INVENTION: TRPM-2 ANTISENSE THERAPY USING AN OLIGONUCLEOTIDE
Sequence 4, Application US/10380124
GENERAL INFORMATION:

APPLICANT: Isls Pharmaceuticals, Inc.
APPLICANT: Susan M. Freier
TITLE OF INVENTION: MYISENSE MODULATION OF CLUSTERIN EXPRESSION
FILE REPERRNCE: RTS-0156
CURRENT FILING DATE: 2003-03-10
NUMBER OF SEQ ID NOS: 90
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 ö

Sequence 3014, Application US/09817879

Publication No. US20030171311A1

GENERAL INFORMATION:

APPLICANT: Ribozyme Pharmaceuticals Inc.

TITLE OF INVENTION: Enzymatic Nucleic Acid Treatment of Diseases or Conditions Relater

TITLE OF INVENTION: Hepatitis C virus Infection

TITLE OF INVENTION: Hepatitis C virus Infection

TITLE OF INVENTION: Hepatitis C virus Infection

TITLE OF INVENTION: BABBO-801-F

CURRENT APPLICATION NUMBER: US/09/817,879

CURRENT FILING DATE: 2001-03-26

NUMBER OF SEQ ID NOS: 9703

SOFTWARE: PatentIn version 3.0

GENERAL INFORMATION:

GENERAL INFORMATION:

APPLICANT: Ribozyme Pharmaceuticals, Inc.

APPLICANT: Blatt, Larry

APPLICANT: BLatt, Larry

APPLICANT: BCSwiggen, Jim

TITLE OF INVENTION: Method and Reagent for the Treatment of Alzheimer's Disease

TILE REFERENCE: MRHB00, 918-A 400/027

CURRENT APPLICATION NUMBER: US/09/930,423

CURRENT FILING DATE: 2001-08-15

SOFTWARE: Patentin version 3.0

SEQ ID NO 359
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  APPLICANT: Ribozyme Pharmaceuticals, Inc.
